**Matured coconuts, grades A, B and C.**

Origin: North Sumatra, Indonesia

Loading port: Belawan, Medan

Minimum order: 10 tons

01 / THE PRODUCT

# SEMI-HUSKED COCONUT

Semi-husked coconuts have part of their husk removed. That makes them easier to handle, while the husk that remains still protects the shell.

They are used for cooking and oil extraction, and their durability suits export.

SEMI-HUSKED COCONUT, HAND-HELD FOR SCALE

**200–500**

MT supply capacity per month*

**10 TONS**

Minimum order (MOQ)

**A / B / C**

03 / PACKING & LOADING

# PACKING, LOADING AND STORAGE

PACKING

## Jute sack, net 40 kg

Also available in plastic with a carton box, or another packing chosen by the buyer.

LOAD PER CONTAINER

LCL (less than container load) — 10 t

FCL 20 ft — 14 t

FCL 40 ft — 28 t

STORAGE AT THE PRODUCER

LOADING

STORAGE RECOMMENDATION

### Keep it dry and clean.

Store in a dry, clean area. Avoid damp places and anywhere that can get wet. Moisture can lead to deterioration and spoilage, and good storage keeps the product fresh and safe.

Container weights follow the producer's figures (20 ft: 14 t, 40 ft: 28 t).

04 / TERMS & DOCUMENTS

# TERMS AND DOCUMENTS
